CORPORATE SOCIAL RESPONSIBILITY

Our forest on Treedom grows every day thanks to our clients. In fact, **for every confirmed mission, we give them a tree** to build a greener world together! The initiative, part of our social commitment, allows us to bring **social and economic benefits to the farmers' territories and reduce our environmental impact**. The tree's planting is documented with a photo and GPS coordinates and you can also learn about its species and read stories from the local communities that get benefits from it.

IMPACT

The trees we plant have big ambitions: to bring benefits not only to the environment, but also to the people who live in it.

SOCIAL BENEFITS

The fruits from our trees remains a property of the smallholders, they can eat it themselves or sell it in order to sustain their families.

ENVIRONMENTAL BENEFITS

All trees are good for the environment: they absorb CO₂, emit oxygen, promote biodiversity, counteract soil erosion and much more.

BPG LOVES ANIMALS

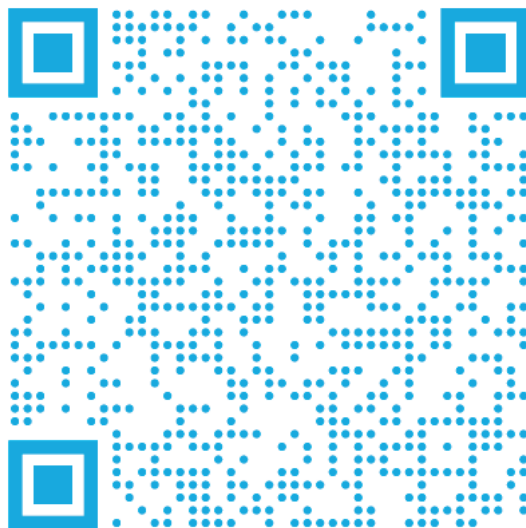

Our goal is to **help animals** in need by providing them with **food, medicine and care**. “BPN loves animals” is our monthly charity initiative that involves all our offices around the world. Each month, our offices engage in animal **charity activities**, dedicating time and resources to improve the lives of animals around the world.

Every month, our team goes to the kennels bringing everything they need. Our commitment to animals does not stop here. We will continue to do our part to protect animals and improve their welfare. We **hope to inspire** others to join us in our efforts: together we can make a difference!
