

# Over 300 partners worldwide – just one click away

Find SOC containers in over 2500 locations and identify partners who reposition your empty containers to where you really need them for a sale or lease deal.

# Gain transparency on supply and demand

At Container xChange, we help NVOs, Freight Forwarders and Container Owners find optimized solutions for their everyday container logistics problems- **saving effort and costs, while reducing CO2 emissions.** 

More than 300 companies use our neutral online platform to find SOC containers and identify partners for repositioning. Instead of weeks, now it takes only a few seconds to find trustworthy partners and make deals.

## **Container Users**

Gain market transparency. Find out who has which equipment where. Just type in your locations to receive a list of partners within seconds.

Avoid demurrage & detention charges. Only pay \$1-3 per diem charges after the 30 free days expire and, sometimes, even get paid to use containers!

**Increase your flexibility.** Always have the exact number of available containers you need to quote your customers within a few minutes and make more business.

# **Container Owners**

Avoid empty container moves. Find partners on xChange that move your equipment to where you really need it for your next sale or lease deal - for free!

Find out who is reliable and trustworthy. Check performance ratings and partner reviews, so you can trust that your assets will be in good hands.

Always know where your equipment is! Track your containers, monitor container status, pickup and drop off releases, and use the xWallet as the real-time single source of truth on your payments.

# How it works

#### a <sup>20</sup> ×Change Ø My Fleet 1 Smart Contracts Service • Requests Requirements Hi Sarah, View all requests You have 2 request(s) where partners are waiting for your action. # Track the journey

No need to type in all your container numbers into multiple websites anymore! Get real-time visibility, container alerts and status updates with MyFleet.

## Manage payments

Gain full control of all credits and review your invoices on a unit level and avoid costly international bank transfers. Invoices and payments are consolidated, netted and managed in real-time. No manual paperwork!

**X**Change

"xChange helps us find hundreds of global one-way partners to balance our inventories."

## seaco

Achieve global transparency on supply and demand in container logistics and work with trustworthy partners.

#### Efficiency

Reduce your manual workload with our intuitive online workflow and get deals done within minutes instead of weeks.

# What our members like the most

#### **Cost Savings**

Avoid demurrage & detention charges and collect pickup credits as a container user, or reduce empty container moves as an equipment owner.

#### Assistance

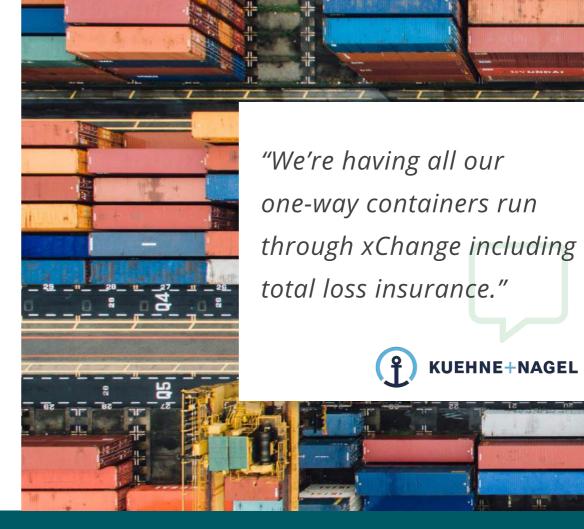

As part of your membership, you can add any release to xChange and use our added services to keep track of your global container operations all in one place.

### Visibility

Keep track of all the units that you have on-hire or leased out in one view that enables you to focus only on the containers that need your attention!

#### Service

The xChange service team supports you 24/7 along the entire processfrom finding partners, to tracking and payment handling.
